**Division**

## Division

### Year 1

Solve 1 step problems involving  $\times$  and  $\div$  using objects, pictures and arrays with teacher support

There are eight oranges.  
Can you share them equally?

### Year 2

Calculate maths statements for  $\times$  and  $\div$  within the times tables and write them using the correct sign

$\times \div =$

Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers

#### Counting

Relate division to counting and multiplication facts.  
Count in 5s to see that there are 4 5s in 20.

How many groups of five are there in 20?

#### Recall and Derive Halves

Look at doubles of even numbers and seeing half of odd numbers as one left over or  $\frac{1}{2}$

#### Halving by partitioning

#### Division by sharing

$$10 \div 5 =$$

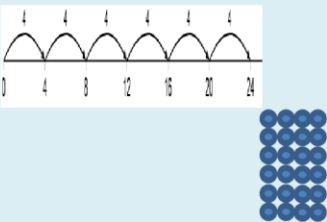

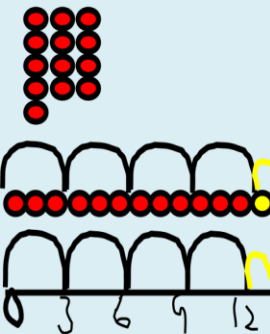

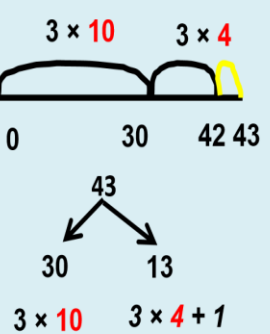

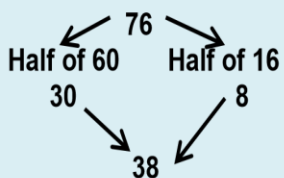

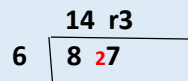

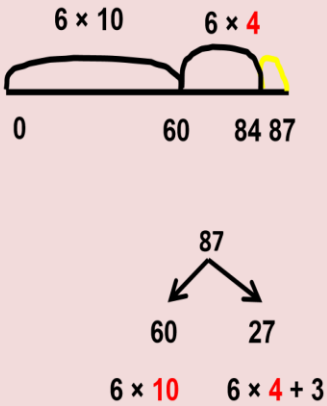

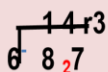

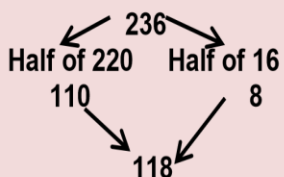

#### Division by grouping

$$35 \div 5 =$$
